

PT-III

- 1) Explain the etiopathogenesis, diagnosis and management of affective disorders.
- 2) Pathogenesis of Migraine headache.
- 3) Explain in detail on pain pathway.
- 4) Mention the types of anxiety disorders. Explain management of generalized anxiety disorder.
- 5) Define granulocytosis. Explain possible mechanism and management of drug induced agranulocytosis.
- 6) Management of status epilepticus.
- 7) Explain Trigeminal Neuralgia and its management.
- 8) What are the patient specific factors must be consider in the final analysis in evidence based medicine.
- 9) Define Narcolepsy. Explain symptoms diagnosis and treatment of narcolepsy.
- 10) Discuss on circadian rhythm disorder.
- 11) Explain Trigeminal neuralgia and its mangem.

123
31/5/23
What is evidence based medicine.
Mention the modalities of evidence based medicine.

- 13) Role of tricyclic antidepressant and Selective Serotonin Reuptake inhibitors in anxiety disorders.
- 14) Explain world health Organization Pain management ladder.
- 15) Write the pathogenesis and pharmacotherapy of migraine headache.
- 16) Diagnostic and statistical manual of mental disorders - IV - test
Revision criteria for Schizophrenia.
- 17) Explain trigeminal neuralgia and its management.
- 18) pathogenesis and pharmacotherapy of migraine headache.
- 19) Non-pharmacological therapy of pain.
- 20) pharmacotherapy of obstructive sleep Apnea.
- 21) what are the patient specific factors that must be considered in the final analysis of evidence based medicine.

- 22) Explain management of Bipolar disorder.
- 23) Write a note on evidence based management.
- 24) Explain symptoms and management of Social Anxiety disorder.
- 25) Discuss the pathophysiology and therapeutic management of anxiety disorders.
- 26) Explain pain pathway. Discuss the management of various types of pain.
- 27) Define Narcolepsy. Explain symptoms diagnosis and treatment of narcolepsy.
- 28) Give the definition, symptoms, classification and treatment in case of drug induced agranulocytosis.
- 29) Explain clinical presentation and pharmacotherapy of anxiety disorder.
- 30) Enlist treatment options in depression.
